dawn smith

For the past 20 years, *Studio Australia* has been my passion, manufacturing a range of Australian ceramic figurines, all hand made and painted for the wholesale market throughout Australia and overseas. Outside of business hours, I love to paint and also have a passion for clay which provides me with a perfect three dimensional canvas to paint on.

A highlight of my career to date was receiving a commission to manufacture and produce (together with my wonderful staff) three hundred 30cm tall ceramic kangaroos, that were shipped all over the world to promote *Australia* (2008) the epic historical romance film directed by Baz Luhrmann and staring Nicole Kidman and Hugh Jackman.
