Talking Machines Education Resource

Theme: People

Video Title- Pioneer Women's Hut Show & Tell (Tumbarumba)

About the Clip:

Synopsis: Join the Women of the Pioneers Women's Hut for their Show & Tell Session. Each storyteller has brought along an object which forms the basis of their story- tales of making do and innovation, shearers strikes, lack of money, making butter, handcrafts. This provides a great window into life in a rural setting from days gone by.

Context/ Background Information:

Throughout the 19th century and much of the 20th century women living and working on Australian farms were little acknowledged for their contribution. Often they physically helped their husbands to clear the land and build the house. Women looked after milking the cows, separating the cream and churning the butter. Poultry were raised for eggs with the help of small incubators and both butter and milk were sold at the local store to buy small luxuries.

Talking Machines: reviving Riverina rural technology collections with video testimonies, captures the histories and stories of generations of Australian men and women who farmed the Riverina, through the rusted metal frames and once sharp blades of dormant farm machinery they used.

The project creates a series of thematic trails across the Riverina and key objects have been selected to support the development of these themes which in turn speak to Australia's role in the industrial revolution- this is the focus of an educational resource. Australia's role in the industrial revolution and the impact of the revolution is little documented in Australian education resources- these films provide an access point for teachers on examples of the impact of the revolution upon rural Australian society. It should be noted that the full impact

in Australian society occurred after the curriculum notes on the European based experience- thus date relating to the manufacture and use of some equipment may not align with those published in the curriculum.

Discussion Pointers:

- Environment/place can be an important element of identity. Is this the case with the people in the video? Explain the reasons for your response.
- Compare and contrast the make do and mend philosophy as demonstrated in the film with today's throwaway society (hand/homemade is now valuable again). How has mass production/cheap consumer goods changed the way we value possessions?

Suggested Classroom Activities:

- Undertake interviews with older community members and discover how life has changed with new technologies- try chatting with grandparents or people in your local retirement village.
- Role play – how would you manage given this scenario? (no electricity, no refrigeration, etc. find out when these services became available in your community.
- Invite the local CWA (Country Women's Association- see <http://cwaofnsw.org>) to show you how to make something.
- Take a site visit to the Pioneer Women's Hut – look at the collections and archive and discuss in the light of this film.
